Can you predict where this is going? This is such a fun activity for pre k, kindergarten, grade 1, grade 2, and grade 3 students. This models sequencing as well as cause and effect. Twig by Aura Parker My daughter and I absolutely adore this 2018 story about kindness. Fall Sequencing worksheets There are four different typical fall items for children to put in order: baking a pie, building a cute scarecrow, raking a pile of leaves, and putting apples in a basket. The Nest that Wren Built by Randi Sonenshine, illustrated by Anne Hunter Starting with Wren's building a nest to sitting on her eggs which hatch and growing fledglings, this spring story of new life consistently ends each stanza with a lovely repeating line, "...the nest that wren built." Lyrical and descriptive with warm brown illustrations, experience the story with all your senses. Now she always finds friends in the playground! Clearly shows beginning, middle, and end. And it's SO awesome — both the clever story and the fantastic illustrations!! Ruby asks her brothers to help her build something. Please see Terms of Use. Does this story sound vaguely familiar to you? Please share by linking to this page. Why won't someone play with her? The Antlered Ship by Dashka Slater, illustrated by the Fan Brothers Fox has so many questions, questions the other foxes don't understand.
